Happy 20th Anniversary eTwinning

**For twenty years, we've made a mark,
With bonds that shine like a glowing spark.
Student exchanges, we've had our share,
A global family beyond compare.**

**Collaboration across the land,
Together we've worked, hand in hand.
European values light our way,
With unity growing every day.**

**Through virtual travels, our worlds expand,
With creativity, we take a stand.
Friendship blooms in every place,
Enriching lives with every embrace.**

**Teachers connecting, hearts align,
Sharing wisdom, bright designs.
A place so safe, a space so free,
Where digital skills grow endlessly.**

**From classrooms buzzing with ideas so bright,
To online dreams that take their flight.
Our happiness shines, a guiding star,
Together we've come so very far.**

**We're better together, side by side,
With open minds, we learn and guide.
Breaking borders, building trust,
In eTwinning's magic, we place our trust.**

**Imagination fuels our way,
Creating futures, come what may.
Celebrating twenty years of glee,
Where learning flows like a boundless sea.**

**So let's raise a cheer, a heartfelt song,
For eTwinning's journey, ever strong.
With joy, we honor the ties we've spun,
United in spirit, we're all as one!**
